BenchSys 2022

The 1st ACM International Workshop on Advancements in Building Energy Benchmarking

Boston, Massachusetts
9th & 10th November 2022

Part of the 9th ACM BuildSys Conference

BenchSys is part of the 9th ACM BuildSys 2022 conference and will be held in Boston between the 9th and 10th of November 2022. The prime objective of this workshop is to ascertain advancements in building energy benchmarking and rating methods, while connecting academic scholars, industry partners, and policy makers. The thematic areas of interest are building data acquisition technology and processes, data sharing protocols and policies, benchmarking modeling methodologies, standardization and widespread adoption, strategy and collaboration, case studies, open source platforms and crowdsourcing.
